Ambulatory Programs Combined Registration - Full Text

The following document is a full text version of our combined online registration tool. The document is available to assist in preparing for the registration process; however all registrations must be completed online. For additional assistance, please contact us (http://bit.ly/AQContactUs).

Ambulatory Quality Improvement Programs Registration

We are pleased to offer opportunities for organizations to participate in the following ambulatory quality improvement programs -- Target: BP, Check. Change. Control. Cholesterol, and Target: Type 2 Diabetes.

Target: BP™

Target: BP™ is a national initiative formed by the American Heart Association (AHA) and American Medical Association (AMA) to improve blood pressure control rates and change the trajectory of cardiovascular health in the U.S. Joining Target: BP signifies your commitment to help reduce the number of Americans living with uncontrolled blood pressure.

As a registered health care organization, you will be able to:

- Access the data platform for submitting blood pressure related data for tracking, benchmarking and receive national recognition
- Receive timely heart health news & publications
- Share best practices from leading health care organizations nationwide
- Participate in free CME/CE opportunities translating the latest evidence into practice

Check. Change. Control. Cholesterol™

Check. Change. Control. Cholesterol™ is a national initiative of the American Heart Association (AHA) to reduce the number of Americans who have heart attacks and strokes by urging medical practices, health service organizations and patients to prioritize Cholesterol management. Register to join the initiative to improve awareness,
As a registered health care organization, you will be able to:

- Access the data platform for tracking, benchmarking and recognition
- Receive e-newsletters providing the latest information on Check. Change. Control. Cholesterol
- Engage with AHA staff to understand best practices and improvement strategies
- Receive information on webinars, support sessions, and learning from other participants

Target: Type 2 Diabetes℠

Target: Type 2 Diabetes℠ is a national initiative of the American Heart Association (AHA) to that aims to prioritize type 2 diabetes and cardiovascular risk factors in clinical care. Register to tackle comorbidities in CVD and type 2 diabetes as part of the Know Diabetes by Heart™ initiative.

As a registered health care organization, you will be able to:

- Access the data platform for tracking, benchmarking and recognition
- Receive e-newsletters providing the latest information on Target: Type 2 Diabetes
- Engage with AHA staff to understand best practices and improvement strategies
- Receive information on webinars, support sessions, and learning from other participants

All registrations must be completed online. To register, you will need to know the following:

- Your organization’s contact information
- Your organization’s total adult (18-85 years) patient population count
- Your organization’s total adult patients (18-85 years) that are a race other than white and/or identify as Hispanic or Latino ethnicity
- The total number of clinic locations in your health system. Note: You may register each of your health center locations individually or as a system overall.
- Your organization’s characteristics, such as multi-specialty, Federally Qualified
Health Center, etc.

Fields denoted with a red asterisk (*) are required. You may close this form and return to it later by clicking on the website browser link (using the same computer and browser) and continuing where you left off. This only applies to forms which have not been finalized.

Q1. To help us better support your organization please tell us in which programs your organization participates and has data platform access. My organization already participates in: (check all that apply) *

☐ Target: BP
☐ Check. Change. Control. Cholesterol
☐ Target: Type 2 Diabetes
☐ None of the above
☐ I am not sure

Acknowledgements

Target: BP Acknowledgments
I acknowledge and agree to the Target: BP Data Use Agreement. The DUA is an agreement between your organization and the AHA/AMA that allows AHA/AMA to use the reported aggregate data for analytic and messaging purposes.

I acknowledge and agree that the information I submit regarding myself and my organization to the Target: BP website is hosted by the American Heart Association, and will be subject to the terms of the American Heart Association’s Privacy Policy. I further acknowledge and agree that this information may be shared with the American Medical Association and, in such event, is subject to the American Medical Association’s Privacy Policy.

Check. Change. Control. Cholesterol Acknowledgment
I agree and accept on behalf of myself and my organization the terms and conditions set out in the Check. Change. Control. Cholesterol Participation Agreement (opens in a new window).

Target: Type 2 Diabetes Acknowledgment
I agree and accept on behalf of myself and my organization the terms and conditions set out in the Target: Type 2 Diabetes Participation Agreement (opens in a new window).

By typing my name below, I agree to the above statements.

Typed Signature: *

After selecting the "Submit" button, you will receive a confirmation email. Please check your spam folders if you do not receive confirmation.
