Target: Type 2 DiabetesSM Outpatient Program

Frequently Asked Questions

ABOUT

What is the Target: Type 2 Diabetes Outpatient Program?

The Target: Type 2 DiabetesSM program is the newest quality improvement and recognition opportunity for organizations providing outpatient care related to type 2 diabetes and cardiovascular risk factors. Brought to you by the American Heart Association and Know Diabetes by HeartTM, the initiative brings together resources, education materials, regional AHA staff support, and recognition opportunities to target improvement and acknowledge organizations for their impactful work.

What is Know Diabetes by HeartTM?

The American Heart Association (AHA) and the American Diabetes Association (ADA), along with industry leaders, have proudly launched the groundbreaking collaborative initiative Know Diabetes by Heart to reduce cardiovascular deaths, heart attacks and strokes in people living with type 2 diabetes.

What are the benefits of Target: Type 2 Diabetes participation and recognition?

Registered organizations will receive communications regarding events, recognition, education and science. Regional AHA staff are available to support your improvement journey. Recognized organizations may receive certificates of achievement, listing on our national websites, promotional materials, opportunities for best practice showcases, resources for self-promotion, and more.

Is there a fee for participation in the Target: Type 2 Diabetes Outpatient Improvement Program?

No. The AHA offers this program as a free resource and program.

Is there an inpatient or hospital focused Target: Type 2 Diabetes Program?

Yes. Target: Type 2 Diabetes Inpatient Honor Roll is an initiative focused on driving improvement in Get With the Guidelines[®]-Heart Failure and -Stroke participating hospitals. Hospitals with these modules will have expanded diabetes related registry elements and reporting. Hospitals that meet specific measure thresholds may be eligible for recognition in the Target: Type 2 Diabetes Honor Roll alongside their existing Get With the Guidelines awards.

REGISTRATION

Who should register?

All U.S.-based organizations who are interested in receiving more information about the program, our educational resources, and relevant clinical updates are encouraged to register. Non-U.S.-based organizations are encouraged to engage in Know Diabetes by Heart communications but are not eligible to submit data and/or be recognized within Target: Type 2 Diabetes at this time.

REGISTRATION *continued*

How do we join?

Go to www.heart.org/RegisterMyOutpatientOrg to register. Registration is open year-round. (For the best user experience, use Chrome, Safari or Firefox as your browser. If you use Internet Explorer, be sure to use version 10 or higher.) Parties interested in data submission and recognition should indicate they would like access to our Data Submission Platform within the registration process.

What information do I need to register?

- Your organization's contact information
- Your organization's total adult (18-85 years) patient population count
- Your organization's total adult patients (18-85 years) that are a race other than white and/or identify as Hispanic or Latino ethnicity
- The total number of clinic locations in your health system.
Note: You may register each of your health center locations individually or as a single system overall.
- Your organization's characteristics, such as multi-specialty, Federally Qualified Health Center, etc.

RECOGNITION

Who is eligible for recognition?

At this time, only U.S.-based healthcare organizations can qualify for the Target: Type 2 Diabetes Outpatient Recognition Program.

What are the recognition award levels?

Target: Type 2 Diabetes Outpatient Recognition has two levels of recognition available to registered, eligible organizations. All data for recognition must be received in the data submission platform for eligibility.

Participant Award:

Recognizes organizations who complete the data submission process inclusive of:

- Organizational information inclusive of a commitment to participate/improve
- Summary numerator/denominator data on the following measures for the previous calendar year:

Required for all:

Diabetes: Hemoglobin A1c (HbA1c) Poor Control (>9%) (NQF 0059/MIPS #1)

AND one of the following two CVD related measures:

- Statin Therapy for the Prevention and Treatment of Cardiovascular Disease (MIPS #438)
- Controlling High Blood Pressure (NQF 0018/MIPS #236)

Gold Achievement Award:

Recognizes Organizations who achieve a Participant Award **and** meet specified thresholds for each clinical measures the site wishes to submit.

Required for all:

Annual rate of 25% or less for HbA1c Poor Control (>9%) based on NQF 0059/MIPS #1

AND one of the following two CVD related measures:

- Annual rate of 70% or greater for appropriate statin therapy based on MIPS #438
- Annual rate of 70% or greater for blood pressure control based on NQF 0018/MIPS #236

RECOGNITION *continued*

Where can I find more information on the measures and their specifications?

The measures selected for Target: Type 2 Diabetes are nationally endorsed and used in many programs such as the Centers for Medicare & Medicaid (CMS) Quality Payment Program (QPP) and Uniform Data System reporting (USD) required of Federally Qualified Health Centers. Measures should be calculated per the CMS guidelines without deviation.

Guidelines for 2019 are linked below:

- Diabetes measure required for all participants:
 - [Diabetes: Hemoglobin A1c \(HbA1c\) Poor Control \(>9%\) \(NQF 0059/MIPS #1\)](#)
- CVD risk management measures (select at least 1)
 - [Statin Therapy for the Prevention and Treatment of Cardiovascular Disease \(MIPS #438\)](#)
 - [Controlling High Blood Pressure \(NQF 0018/MIPS #236\)](#)

What is the data collection timeframe?

Data from the previous calendar year are collected once a year in accordance with the current year's recognition cycle. Visit www.knowdiabetesbyheart.org/professional/quality-improvement for this year's data submission window.

How can I prepare for data submission?

The AHA has prepared a Data Collection Worksheet to help interested registrants prepare for the data submission process. This worksheet can be found alongside our other recognition resources on www.knowdiabetesbyheart.org/quality.

May I edit my data after it has been submitted?

Yes. You will be able to edit data at any time. However, once the submission window closes, a snapshot of your data will be taken and that will determine your recognition award level. Any data edited after the submission window closes will not be considered for recognition.

I did not select the "Data Entry Complete" checkbox when I finished my data entry, and now we are past the submission deadline. Will my organization still be eligible for recognition?

Yes. Organizations with complete, error-free data submissions as of the deadline will still be included in the snapshot for that year's recognition, even if the "Data Entry Complete" checkbox is unchecked.

How will my health care organization be recognized?

In the fall of each year, organizations will be notified of their recognition status.

DATA

How will this information be used?

Data will be used to track success rates and improvement according to the Target: Type 2 Diabetes program structure. Organizations that commit to improving and submit all required information will be eligible to receive achievement awards on an annual basis. Only those who give AHA permission to recognize them publicly will have their award level published.
